

Perfect Binding Cover

Glued Area

Area to be glued 5mm either side of spine, plus allowance for spine width.

Please ensure that the area to be glued on the inside of the cover is free of cello-glaze and printed matter as the glue will not stick.

Covers must be supplied flat and with no scores.

Maximum cover weight - 350gsm

Bleed Area

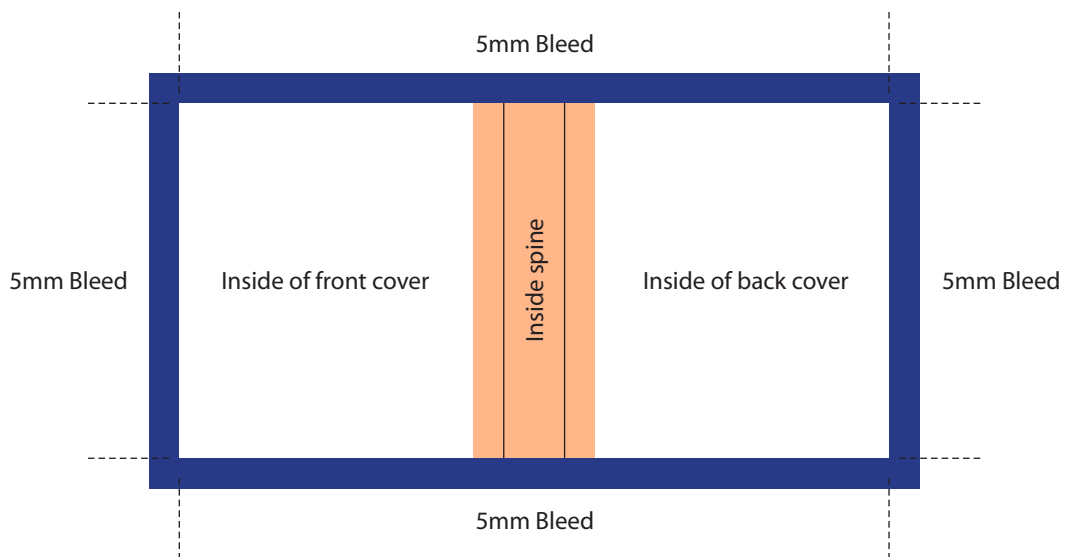

The bleed is the area that the binder cuts away when finishing the book. 5mm is needed for all 4 sides.

Text Max.: 320mm x 320.

Text Min.: 135mm x 105 - Binding edge

Cover Max.: 620mm x 320mm

Cover Min.: 135mm x 230mm
