twinloop

DH360 Hot Roll Laminator

The DH360 is a roll laminator ideal for print room, copy shops and large corporates. It is a hot and cold 4 roller system with an internal infrared heating system, adjustable speed and temperature and LED display. It is available as a desktop unit or has an optional stand.

The DH360 also has a model with extension arms. This provide is more clearance from the machine, meaning that longer rolls of film can be fitted onto the laminator.

In reference to loading the Digital Stick Film the DH360 will fit a 315 x 300mtrs on a 25mm core. With at the DH360 with the extension arms, it will find the 500m rolls and then you also have the option of changing the core adaptors for a wide range of stock. It is however sold with a 25mm core size as standard.
