

## WBM 532 Manual Wire Closing Machine

The manual WBM-532 Wire Closer is perfect for enhancing any print rooms productivity. It's simple to use, all metal construction design guarantees high productivity and durability. It will close all 3:1 and 2:1 Wire sizes from 4.8mm up to 32mm.

### Machine Features:

- Consistent finishing quality
- Stand Alone Design: The unit is designed to also work as a stand alone unit, thus no additional "holding device" is required.
- Open-ended Closing Channel: allows closing of wires in any length.
- Wire Closer Control: provides fast & accurate setup of the wire closer. Gradual adjustment guarantees a perfect wire closing result, regardless of the type of wire being used
- Vertical closing mechanism
- Built-in Wire Holder: holds the wire in position, so that punched sheets can be easily & quickly inserted.
- Built-in Diameter Size Selector: measures document's thickness, in order to determine the best wire size option.
- User-friendly Design and Heavy-duty All Metal Construction: guarantee maximum productivity and durability.
- Magnetic base - aligns and holds the wire in place during the closing process making a perfect close every time
- Closes 3:1 and 2:1 wire pitches including sizes from 4.8mm up to 32mm
